

## In-Trust

The In-Trust Network is for men and women with a transgendered or intersex history.

The group have been meeting since December 2006. The network held its launch in June of this year and work has already begun on a series of initiatives to help raise awareness of the many issues facing transgender people in their everyday lives both in employment and service provision.

The network is not a support group but can help to signpost trans people towards other groups in the region.

The Aims are to:

- provide a safe place to explore and express your personal gender identity
- combat isolation
- provide support with information and resources
- provide a space where all transgendered people can socialize, share experiences and exchange ideas
- combat transphobia
- promote greater acceptance and rights for all transpeople
- provide help & advice for transpeople who want to support friends, family & colleagues
- provide advice and support with transitioning

Above all, the group is intended to foster a sense of inclusion and celebration of each of us as unique and valued (trans) people.

For more information about the Network, please contact Tony Griffin by emailing [tony.griffin@equalities.seftoncvcs.org.uk](mailto:tony.griffin@equalities.seftoncvcs.org.uk) or call (0151) 928 2233, ext. 306.
